

World Meteorological Day 2019 – The Sun, the Earth, and the Weather

Pakistan Meteorological Department (PMD) celebrated the WM Day 2019 and arranged an exhibition at Institute of Meteorology & Geophysics (IMG), Met. Complex, University Road, Karachi. Inaugurated by Chief guest Muhammad Muslehuddin, Director (Rtd) PMD, the exhibition's main features are the display of conventional and modern meteorological, climatological and seismological instruments, charts and various aviation, astronomical, hydrological and climatological products to highlight the services render by PMD. Director, IMG, Mr. Sardar Sarfaraz, presented the welcome address and briefed the audience on the theme of the day "The Sun, the Earth and the Weather".

Mr. Abdul Rashid, Chief Meteorologist PMD, briefed the audience about progress of the department. He highlighted the significance of PMD's role in weather forecasting and other climate services, to facilitate various public sectors and to protect life and property.

In the last Mr Sarfraz, Director thanked the audience and all the stakeholders for their participation which made the event a success. The exhibition remain opened on 24th and 25th March 2019 for students and the public.
