

# Somalia Early Warning-Early Action Dashboard

**Daniel Molla, Chief Technical Advisor**

**Food Security and Nutrition Analysis Unit (FSNAU)**

**FAO Somalia**

# Somalia Early Warning-Early Action Dashboard

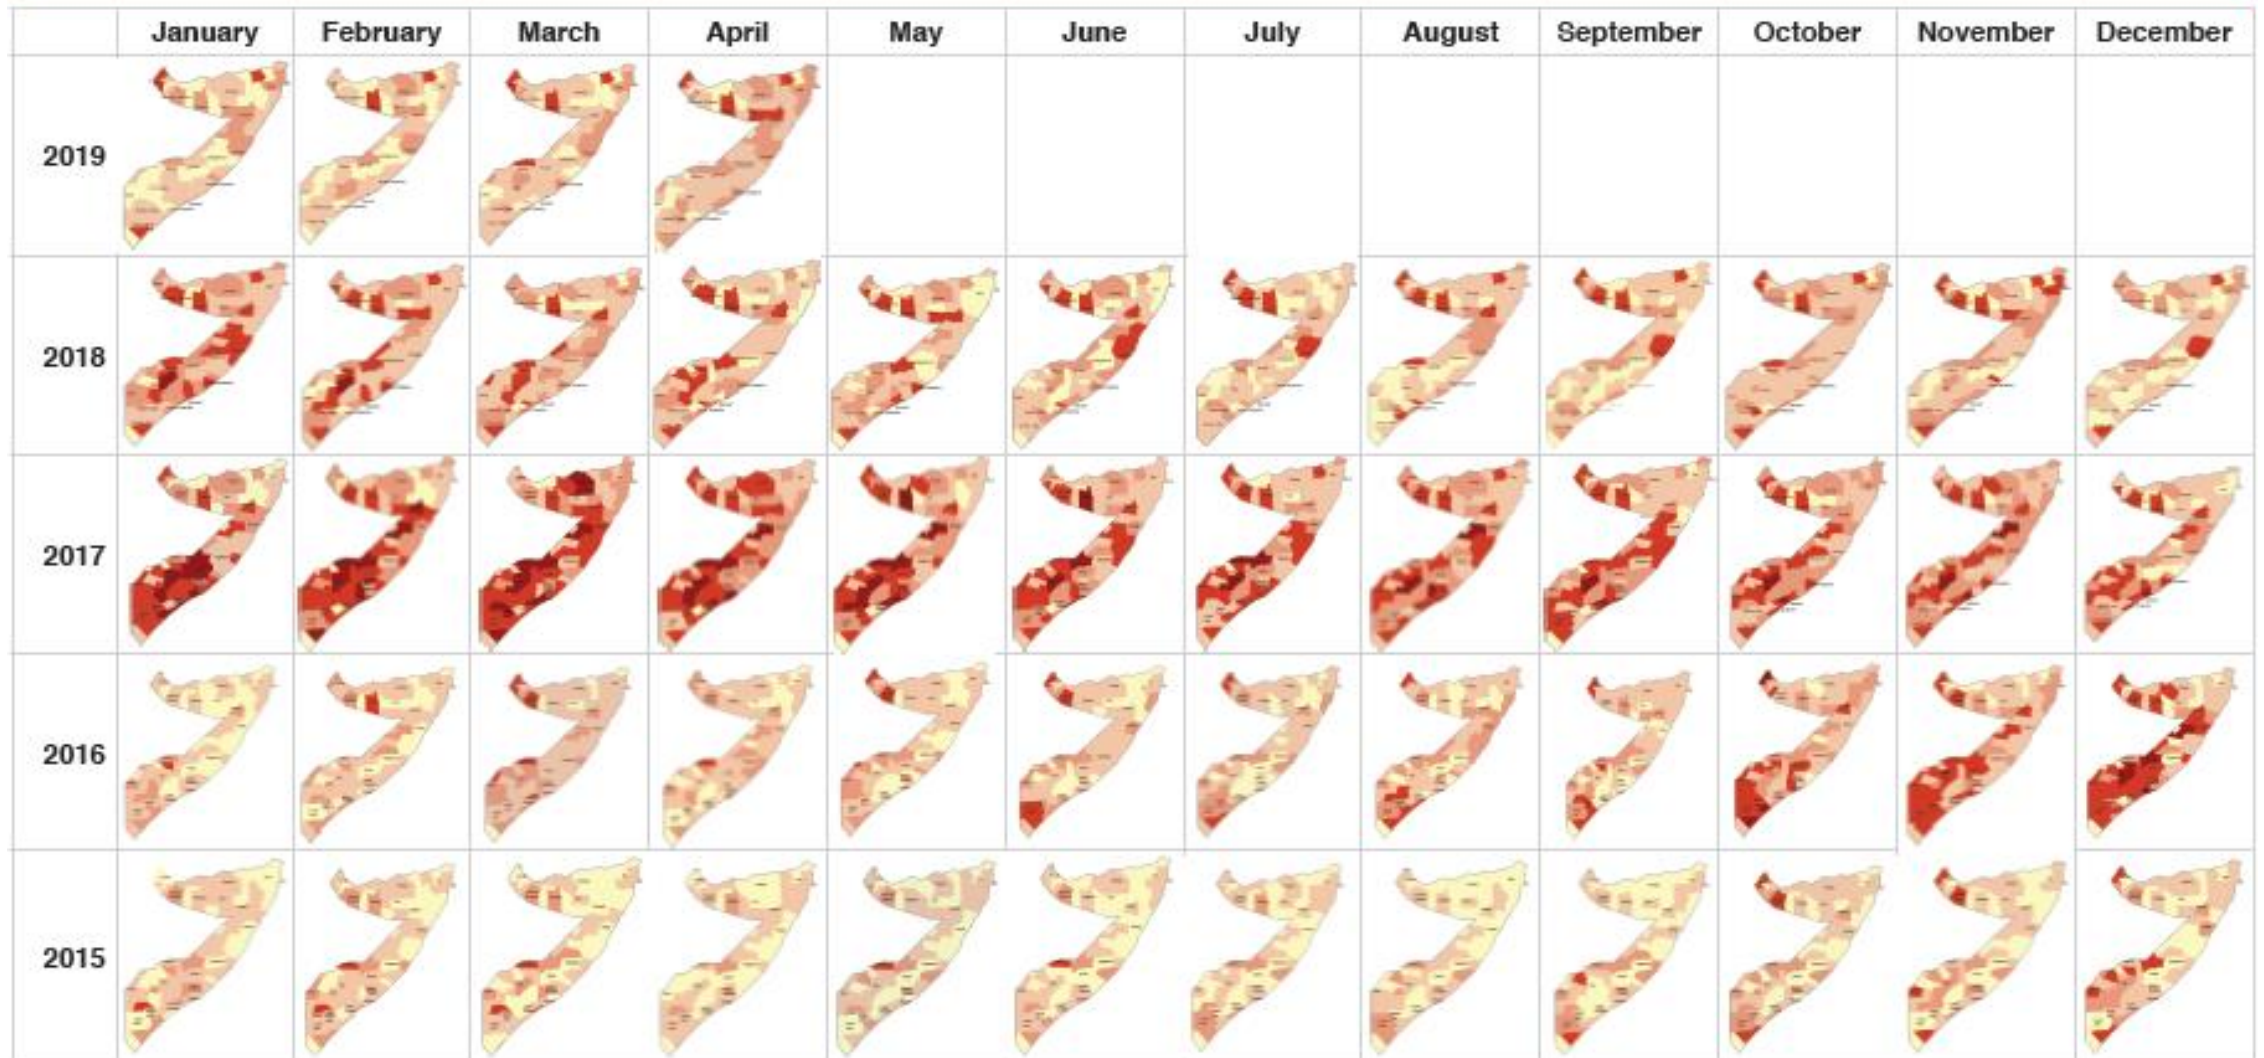

- Uses monitoring data on multiple hazards and risk factors: 1. **Climate** (rainfall and vegetation cover), 2. **Market** (prices and terms of trade), 3. **Nutrition** (new admission to treatment and feeding centers), 4. **Health** (AWD/Cholera and measles) and 5. **Population movement/displacement**.
- Indicators are monitored on a monthly basis at district level
- Data made accessible to registered users through an interactive dashboard; enables users to explore relationships between various risk factors
- Updated information shared with users in the form of time-series map and chart
- EW-EA dashboard data, chart and map complement bi-annual (seasonal) food security and nutrition assessments
